NAZCA LINES FLIGHT FROM ICA

HISTORY, CULTURE, ADVENTURE AND MUCH MORE

“Discover ancient secrets with our Nazca Lines Tour, perfect for those based in Ica or Huacachina. We provide private transportation to the Nazca airport, but the adventure begins long before the flight. En route, we explore the Palpa desert, home to unique human-like geoglyphs. Then we visit an elevated tower for panoramic views of animal and geometric figures in the Nazca desert. Once in the air, marvel at the mysterious drawings carved into the desert floor centuries ago.”

NAZCA LINES FLIGHT FROM ICA

ICA - NAZCA
PRIVATE TRIP

HUMAN GEOGLYPHS
PALPA LINES

● **1. Pick-Up from Your Hotel – 7:00 AM**

Your adventure begins at 7:00 AM, when our representative picks you up from your hotel in Ica or Huacachina. Enjoy a comfortable ride in private transport across the Peruvian desert, passing immense sand dunes, rocky valleys, and Andean foothills. Along the way, your guide will share insights about the region's culture, history, and landscape that make this route one of Peru's most scenic drives.

● **2. Palpa Hills Geoglyphs**

During the journey, we make a stop at the Palpa viewpoint, where you can see ancient human-shaped geoglyphs carved into the hillsides. Unlike the Nazca Lines, these mysterious figures can be admired from the ground, showing people with raised arms and elaborate headgear. This rare stop offers a close encounter with an ancient culture that once thrived in Peru's desert valleys.

THE HANDS GEOGLYPH
NAZCA DESERT

THE CAT GEOGLYPH
NAZCA DESERT

● **3. Nazca Observation Tower**

Before reaching the airport, we visit the Nazca Metal Tower, an observation platform that offers a spectacular view of The Tree, The Hands, and various geometric lines crossing the desert plain. From here, you'll appreciate how perfectly the Nazca people aligned these massive drawings. This stop provides an excellent introduction to the scale and mystery of the Lines before seeing them from the air.

● **4. Natural Observatory Hill & the Cat Geoglyph**

We also visit the Natural Observatory Hill, a small desert promontory that offers a panoramic view of several Nazca Lines from the ground. From this natural lookout, you can clearly see long geometric designs and nearby stands the famous Cat geoglyph, a remarkable figure rediscovered in 2020. Etched into the hillside, this feline-shaped design predates many other lines and offers a rare glimpse into the early stages of Nazca art.

NAZCA AIRPORT

● **5. Flight Over the Nazca Lines**

Next, we head to the Nazca Airport for a 35-minute scenic flight over Peru's most iconic archaeological site. From your individual window seat, enjoy breathtaking views of famous figures such as the Monkey, Hummingbird, Spider, Condor, and Astronaut. As your pilot explains each figure, you'll marvel at how these giant designs, created over 2,000 years ago, still inspire wonder today.

● **Return to Ica**

After your flight, you'll have some free time to relax at the terminal or enjoy a refreshment before heading back to Ica.
